Creating Solutions to Protect the Rainforest from Destruction

Raintree Nutrition, Inc. was founded on the principal that sustainable wild-harvesting of rainforest plants provides the best viable and economic alternative to destroying the forest for the income provided by timber harvesting, large scale cultivation programs, subsistence cropping, and other agricultural schemes like cattle operations. Since the forest is being destroyed for the income and profits it yields; if we are truly prepared to preserve our remaining forests we must offer these types of viable economic alternatives which addresses the real problem. Since it's inception in 1995, Raintree has been a leader in creating a world market for the important sustainable plants of the Amazon Rainforest. Today, millions of acres of government owned, privately held, NGO controlled, and Indian demarcated lands in the Amazon are demonstrating through Raintree's harvesting programs, that wild-harvesting plants on rainforest land provides greater income and profits to the land owner and country than any other unsustainable land usage. Raintree's harvesting programs competes successfully and directly with other interests in the rainforest like timber logging and results in higher profits for the land while still preserving its biodiversity instead of destroying it. This is the economic incentive and encouragement necessary to protect the rainforest for future generations and it is working to protect rainforest lands today.

The Value of the Amazon

The Amazon Rainforest has long been a symbol of mystery and power; a sacred link between humans and nature. It is also by far the richest biological incubator on the planet. It supports millions of unique plant, animal, and insect species - a virtual library of chemical invention and thus far, scientists have cataloged and studied less than 5%. In these chemical archives, drugs like quinine, muscle relaxants, steroids and cancer drugs are found. More importantly, are the new drugs still awaiting discovery - possible drugs for AIDS, cancer, diabetes, arthritis, Alzheimer's and many more. Many untold medicinal treasures await discovery in the depths of the Amazon. So alluring is this storehouse of millions of novel chemicals that over 100 pharmaceutical companies and even the U.S.government are currently funding projects studying tropical rainforest plants. Yet extracting these secrets from the jungles is no easy task and sadly, this state of affairs may not last long enough into the future for man to unlock all their secrets.

Tragically, rainforests once covered 14% of the earth's land surface; now they cover a mere 6%. In less than 50 years, more than half of the world's tropical rainforests have fallen victim to fire and the chain saw and the rate of destruction is still accelerating. Experts estimate that we are losing 130 species of plants, animals and insects every single day as they become extinct from the loss of rainforest land and habitats. How many possible cures to devastating diseases have we already lost?

Indigenous Knowledge

Long regarded as hocus-pocus by science, indigenous peoples' empirical plant knowledge is now thought by many to be the Amazon's new gold. Yet sadly, many seeking to tap this highly profitable natural resource are now rightfully branded and outlawed as "Bio-pirates" in rainforest countries due to their unethical practices. These include the pharmaceutical and biotech companies which learn from the Indians which plants in the shaman's medicine bag of natural remedies have active properties in their ongoing search to find biologically active plants which will yield new active plant chemicals. They virtually steal this indigenous knowledge and take the discovered plant chemicals back to their laboratories where they synthesize them into patentable and highly profitable billion dollar drugs. In this regard, nothing is given back to the indigenous people for their knowledge and leads in targeting the right plant or to the country and rainforest where the plant originated and was discovered. Yet, this wealth of biologically active rainforest plants is the true wealth of the rainforest, and the means by which it can be saved - if approached with the proper motives, methods and ethics.

Sharing the Wealth of Knowledge

Raintree founder and Board Certified Naturopath, Leslie Taylor, spends extensive time with indigenous rainforest Indian tribes, shamans, local healers and rural herbal doctors throughout the Amazon learning and documenting their extensive plant knowledge. Her mission has been to publicize and publish this indigenous knowledge where it can be shared and used by all - even among the indigenous people themselves. More importantly, publishing this type of information legally puts this important knowledge into the public purview so that it cannot be patented or exploited by any single company. If the knowledge is already public knowledge - then it cannot be patented for the sole profits of a few. Ms. Taylor's published book, *Herbal Secrets of the Rainforest*, as well as the online Raintree Tropical Plant Database has been used several times in the past and will be used countless times in the future as reason to deny U.S. plant-use patents from being filed on tropical rainforest plants. In this manner, not only is the knowledge freely shared and accessible to all, but profitable global markets are created for these rainforest plants and many others will share in the profits realized in the sustainable harvesting of them.

Raintree's Herbal Supplements

Raintree Nutrition, Inc., now considered one of the world's experts on South American rainforest plants, sustainably wild-harvests and exports worldwide over 90 sustainable rainforest plants, resins and oils from the Amazon; developing over 60 proprietary rainforest herbal formulas and extracts. Raintree is at the forefront in creating new markets and disseminating accurate information, facts, science and research about these wonderful plants of the Amazon.

The process of formulating an effective Raintree formula begins with the thousands of years of empirical indigenous knowledge passed down through the generations about the plants and their properties. Then, modern research on the phytochemistry and pharmacological actions and safety is complied and/or performed which, more often than not, validates the time-honored indigenous use of the plant. The plants are then synergistically combined into specific formulations using both modern science and the traditional Indian methods, and thus a new and highly effective Raintree formula is created.

We repeatedly hear from our satisfied customers and health practitioners that, "There is something special about your formulas; their effects are more profound, act more quickly, and are broader in scope than any other products." In part our formulas' success originates simply from the environment in which these rainforest plants grow. The richness and energy of the Amazon biosphere environment is truly unique and dramatically different than anywhere else in the world.

Another piece contributing to our formulas' potency and efficacy is the unique manner of harvesting. Most all Raintree Nutrition botanicals are harvested by the Indigenous Indian tribes of the rainforest, specifically to our order as we need them. These tribes and their shamans are the experts in harvesting and working with these plants and their ever changing life cycles. Because we control the process from the time the plants are growing in the jungle until they are placed into a Raintree labeled product (which oftentimes can be as little as a month in time) we are assured of the quality, freshness and potency of our rainforest ingredients. Finally, is our time honored and natural approach to processing, manufacturing, and formulation. All Raintree formulas provide only whole natural plants that have not been chemically treated or altered in any way. They are already rich in the natural and active plant chemicals naturally occurring in the plants and in the ratios Nature made them to work synergistically together. None of our plants are ever fumigated or irradiated. In manufacturing our capsule formulas, 100 percent natural ground whole plants are delivered without any binders, fillers, excipients or synthetic chemicals added in the process. Our liquid extracts are prepared based on the individual chemistry of the plants and the best natural method to extract the plant without any chemical preservatives or other man-made chemicals. The combination of all of these processes make Raintree's products so unique that they literally they stand in a class of their own.

We're pleased to share these highly efficacious rainforest formulas and products outlined in the following pages. Please note that there are two distinct product lines. Information on Raintree's main retail product line is found in the beginning of the catalog on pages 4-10. These products can be found in retail health food stores, from practitioners of the healing arts, and from Raintree Nutrition directly. The Amazon Support Formulas featured on pages 11-16 at the back of this catalog are available only through practitioners of the healing arts and from Raintree Nutrition directly. They cannot be found in retail stores. For more complete documentation on Raintree's products and their rainforest plant ingredients, just log on to the extensive Raintree website where you'll find a wealth of information. www.rain-tree.com

2 – WAYS TO ORDER

Karma's Herbs Shipping Policy

If you purchase products directly from me (PICK-UP) - \$5.00 if 6 products and under and \$6.50 if over 6 products.

STANDARD QUANTITIES ONLY – THIS DOES NOT INCLUDE SAMPLE SIZES.

If you purchase products shipped directly from Raintree Nutrition, Inc. Outside of the U.S. please email or call for a shipping price.)

Raintree Nutrition Shipping Policy

All orders are processed the same day we receive them. All U.S. orders will be shipped by USPS Priority Mail and average delivery time is 3-5 days. Upon shipping your order we will email you with a tracking number which you can track online at the U.S. Post Office website.

RAINTREE NUTRITION RETAIL PRODUCTS

Available through health food stores, health practitioners and Raintree Nutrition, Inc.

AJOS SACHA CAPSULES 100 capsules / 500 mg \$14.95

Ajos sacha is traditionally used in the Amazon for arthritis, colds, and flu.* Raintree's ajos sacha is wild harvested—grown naturally in the Peruvian Amazon without any pesticides or fertilizers. This product is non-irradiated and non-fumigated. Suggested use: 2 capsules 2 - 3 times daily or as directed by a health care professional. Ingredients: 100% pure ajos sacha leaf (*Mansoa alliacea*).

AMAZON PASSION OIL .35 Ounces \$25.95

This oily copal amber resin from the jatoba tree is used in love potions and magic rituals by the shamans in the Amazon.* It produces a distinctively different and unique aroma on each person who wears it. Suggested use: Apply to the skin on the pulse points as desired.

AMAZON VITALITY 120 capsules / 650 mg \$25.95

Keep your cells young, healthy, and vital with this dynamic formula of 8 rainforest plants documented with cellular protective actions for the skin, brain, liver, kidneys, gastric tract, heart, and immune system.* Suggested use: 2 capsules twice daily with meals. Ingredients: A proprietary blend of calaguala, samambaia, chanca piedra, cat's claw, fedegoso, picão preto, gervão, and tayuya.

ANAMU CAPSULES 100 capsules / 500 mg \$14.95

Anamu is traditionally used to support the immune system.* Raintree's anamu is wild harvested—grown naturally in the Amazon Rainforest without any pesticides or fertilizers. This product is non-irradiated and non-fumigated. Suggested use: 2 capsules 2 - 3 times daily. Ingredients: 100% pure anamu whole herb (*Petiveria alliacea*).

ARTICHOKE EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Artichoke is traditionally used for healthy cholesterol metabolism and to nutritionally support the liver.* Raintree's concentration and extraction methods provide the equivalent of 500 mg of artichoke leaf per milliliter of extract. Suggested use: 60 drops (2 ml) two or more times daily or as desired. Ingredients: pure artichoke leaf (*Cynara scolymus*) extracted in distilled water, vegetable glycerine, and alcohol.

*** These statements refer to traditional uses only and are not supported by medical research. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to treat, cure, mitigate or prevent any disease or condition.**

AYAPANA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Ayapana is traditionally used in South America to support the digestive and upper respiratory tracts.* Raintree's ayapana is wild harvested—grown naturally in the Peruvian Amazon without any pesticides or fertilizers. This product is non-irradiated and non-fumigated. Suggested use: 60 drops (2 ml) 2-3 times daily or as needed. Ingredients: pure ayapana leaf (*Ayapana triplinervis*) extracted in distilled water and vegetable glycerine.

BELLACO CASPI EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Bellaco caspi is traditionally used in South America to support the female reproductive system and used topically for the skin.* Raintree's bellaco caspi extract is a proprietary blend of the bark and the resin of this rainforest tree. Suggested use: 60 drops (2 ml) 2 - 3 times daily or as needed and used topically on the skin as desired. Ingredients: pure bellaco caspi bark and resin (*Himatanthus sukuuba*) extracted in distilled water and ethanol.

BOBINSANA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Bobinsana is traditionally used in South America as a blood cleanser, stimulating tonic, and for arthritis.* Raintree's bobinsana has been sustainably wild harvested in the Peruvian Amazon without any pesticides or fertilizers. Suggested use: 60 drops (2 ml) 2 - 3 times daily or as needed and used topically on the skin as desired. Ingredients: pure bobinsana bark (*Calliandra angustifolia*) extracted in distilled water and ethanol.

BRAZILIAN PEPPERTREE EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Brazilian peppertree is traditionally used as a heart tonic and to regulate heartbeat.* The extraction methods used provides the equivalent of approximately 500 mg of Brazilian peppertree bark per milliliter of extract. Suggested use: 60 drops (2 ml) 2 - 3 times daily or as needed. Ingredients: 100% pure Brazilian peppertree bark (*Schinus molle*) extracted in distilled water and ethanol.

CAIGUA CAPSULES 100 capsules / 500 mg \$15.95

Caigua is traditionally used in Peru to support healthy cholesterol and blood pressure levels.* Raintree's caigua fruit is sustainably wild harvested in the Peruvian Amazon and freeze dried into a powder. Suggested use: 2 capsules 2 - 3 times daily or as directed by a health professional. Ingredients: 100% pure caigua fruit powder (*Cyclanthera pedata*) with no binders, fillers or excipients used.

*** These statements refer to traditional uses only and are not supported by medical research. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to treat, cure, mitigate or prevent any disease or condition.**

CAMU-CAMU CAPSULES 100 capsules / 500 mg \$15.95

Camu-camu is the highest known plant source of natural vitamin C on the planet.* Raintree's camu-camu fruit is sustainably wild harvested in the Peruvian Amazon and freeze dried into a powder. Suggested use: 2 capsules 2 - 3 times daily or as directed by a health professional. Ingredients: 100% pure camu-camu fruit powder (*Myrciaria dubia*) with no binders, fillers or excipients used.

CARQUEJA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A concentrated liquid extract of carqueja; an Amazon plant with a long history of use as a natural digestive and liver aid in South America.* Carqueja is very similar in traditional uses as the American milk thistle plant.* Suggested use: 60 drops (2 ml) two or more times daily. Ingredients: carqueja whole herb (*Baccharis genistelloides*) extracted in distilled water and ethanol.

CAT'S CLAW CAPSULES 100 capsules / 500 mg \$14.95

Raintree's cat's claw provides the highest alkaloid content of any natural bark capsules available; it assays in a range of 1.20% to 1.58%. Suggested use: 2 capsules twice daily. Ingredients: 100% pure inner bark of cat's claw (*Uncaria tomentosa*) with no binders, fillers or excipients used.

CATUABA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A concentrated liquid extract of catuaba which is highly regarded and well known in Brazil for its potent libido benefits.* The extraction methods used provides the equivalent of approximately 500 mg of catuaba bark per milliliter of extract. Suggested use: 60 drops (2 ml) 2 or more times daily. Ingredients: catuaba bark (*Erythroxylum catuaba*) extracted in distilled water and ethanol.

CHÁ DE BUGRE CAPSULES 100 capsules / 500 mg \$14.95

Chá de bugre is traditionally used in Brazil as a weight loss aid.* Raintree's chá de bugre is sustainably wild harvested in the Brazilian Amazon where it has grown naturally without any pesticides or fertilizers. Suggested use: 2 capsules 2-3 times daily or as desired. Ingredients: 100% pure chá de bugre leaf (*Cordia salicifolia*).

*** These statements refer to traditional uses only and are not supported by medical research. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to treat, cure, mitigate or prevent any disease or condition.**

CHANCA PIEDRA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A concentrated non-alcohol liquid extract of chanca piedra which means "stone-breaker" throughout South America.* The proprietary extraction methods used provides the equivalent of approximately 500 mg of chanca piedra per milliliter of extract. Suggested use: 60 drops (2 ml) 2 or more times daily. Ingredients: 100% pure chanca piedra whole herb (Phyllanthus niruri) extracted in distilled water and vegetable glycerine.

CHANCA PIEDRA CAPSULES 100 capsules / 500 mg \$14.95

Raintree's chanca piedra has been sustainably wild-harvested in the Amazon Rainforest and the capsules are 100% pure natural herb without any binders, fillers or additives. Suggested use: 2 - 3 capsules twice daily. Ingredients: pure 100% chanca piedra (Phyllanthus niruri) whole herb (root, stem, leaves).

CHUCHUHUASI EXTRACT 2 Fluid Ounces / 60 ml \$17.95

This rainforest tree is called "trembling back" in the Amazon for its ancient use as a tonic for tired, achy, and trembling muscles.* It is also traditionally used as an energy tonic and to support the adrenals.* Suggested use: 60 drops (2 ml) 2 - 3 times daily as needed. Ingredients: 100% pure chuchuhuasi bark (Maytenus krukovii) extracted in distilled water and ethanol.

CLAVO HUASCA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A concentrated liquid extract of clavo huasca vine which is used throughout the Amazon as a libido enhancer for women.* The extraction methods used provides the equivalent of approximately 500 mg of clavo huasca per ml of extract. Suggested use: 60 drops (2 ml) 1-2 times daily or as desired. Ingredients: clavo huasca vine (Tynanthus panurensis) extracted in distilled water and ethanol.

CUMASEBA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Cumaseba is traditionally used in the Amazon as a female tonic, for pain and inflammation, and for colds and flu.* Raintree's cumaseba bark has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Ingredients: cumaseba bark (Swartzia polyphylla) extracted in distilled water and ethanol.

*** These statements refer to traditional uses only and are not supported by medical research. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to treat, cure, mitigate or prevent any disease or condition.**

-8

GRAVIOLA CAPSULES 100 capsules / 600 mg \$14.95

Pure graviola leaf and stem, rich in active and beneficial acetogenin plant chemicals which occur naturally in this powerful rainforest plant.* Raintree's graviola has been sustainably wild-harvested or organically cultivated in the Amazon without the use of pesticides or fertilizers. Suggested use: 3 capsules 3-4 times daily. Ingredients: each capsule contains 600 mg of pure 100% graviola leaf and stem (*Annona muricata*). No binders, fillers or other additives are used.

GRAVIOLA MAX CAPSULES 120 capsules / 600 mg \$17.95

Some of the active ingredients documented, researched, and verified in graviola are a group of Annonaceous acetogenins which are only found in the Annonaceae plant family. Graviola (*Annona muricata*) has 82 different acetogenin chemicals (in 10 distinct types). Mountain graviola (*Annona montana*) contains the main annonacin chemical that graviola does, and, it has 26 more acetogenin chemicals not found in graviola (in 6 distinct types)! Graviola Max combines both species of graviola to provide 12 different types of acetogenins—108 distinct powerful chemicals in all. Suggested use: 3 capsules 3-4 times daily. Ingredients: A proprietary blend of graviola leaf and stem (*Annona muricata*), and mountain graviola leaf and stem (*Annona montana*). No binders, fillers, or additives are used.

GUACATONGA CAPSULES 100 capsules / 600 mg \$14.95

Some of the active ingredients documented, researched, and verified in guacatonga are a group of clerodane diterpenes. These phytochemicals are being researched and patented for their active biological properties and potential uses.* Suggested use: 3 capsules 3-4 times daily. Ingredients: each capsule contains 600 mg of pure 100% guacatonga leaf and stem (*Casearia sylvestris*). No binders, fillers or other additives are used. This is a wild-harvested plant grown without chemicals.

HUACAPU EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Huacapu is traditionally used in the Amazon for bacteria, viruses and parasites.* Raintree's huacapu bark has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Ingredients: huacapu bark (*Minquartia guianensis*) extracted in distilled water and ethanol.

*** These statements refer to traditional uses only and are not supported by medical research. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to treat, cure, mitigate or prevent any disease or condition.**

-9

HUANARPO MACHO EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Huanarpo macho is as famous in Peru as muira puama is in Brazil. It is traditionally used in Peru for male sexual potency and libido.* Raintree's huanarpo macho has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Ingredients: huanarpo macho bark (*Jatropha macrantha*) extracted in distilled water and ethanol.

JAGUARA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Jaguara Amazon Formula for Women was developed to help women put the pounce back into their love life. This unique product is formulated to support female libido and sex drive.* Suggested use: 60 drops (2 ml) twice daily. Ingredients: A proprietary blend of catuaba, clavo huasca, abuta, maca, chuchuhuasi, suma, damiana and sarsaparilla extracted in distilled water, ethanol and vegetable glycerine.

JATOBA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Jatoba is traditionally used in the Amazon as a natural energy tonic and for fungus, candida, and mold.* This tree bark has been sustainably wild-harvested (without pesticides or fertilizers) in the Brazilian Amazon and is non-irradiated and non-fumigated. The extraction methods used provides the equivalent of approximately 500 mg of jatoba per milliliter of extract. Suggested use: 60 drops (2 ml) 2 or more times daily. Ingredients: jatoba bark (*Hymenaea courbaril*) extracted in distilled water and ethanol.

JERGON SACHA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Jergon sacha is traditionally used in the Peruvian Amazon for viruses and snakebites.* Raintree Nutrition's jergon sacha root has been organically cultivated in Peru without pesticides or fertilizers since it is not sustainable to wild-harvest the root in the forest. The extraction methods used provides the equivalent of approximately 500 mg of jergon sacha root per milliliter of extract—resulting in a highly potent concentrated extract. Suggested use: 60 drops (2 ml) two or more times daily. Ingredients: 100% pure jergon sacha root (*Dracontium lorentense*) extracted in distilled water and ethanol.

JERGON SACHA CAPSULES 100 capsules / 500 mg \$14.95

This unique rainforest plant is also available in pure 100% ground root capsules. This product is non-irradiated and non-fumigated. It is an organically grown product—grown naturally in the Peruvian Amazon without any pesticides or fertilizers. Suggested use: 4 capsules twice daily. Ingredients: 100% pure jergon sacha root/rhizome (*Dracontium lorentense*). No binders, fillers or additives are used.

KALAWALLA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A synergistic blend of two rainforest ferns including kalawalla (also spelled calagualla) and samambaia. These tropical ferns are traditionally used for many types of skin conditions in South America and Latin America.* Suggested use: 60 drops (2 ml) three times daily. Can also be used topically on the skin if desired. Ingredients: A proprietary blend of kalawalla (*Polypodium leucotomos*) and samambaia (*Polypodium decumanum*) extracted in distilled water and glycerine.

MACA CAPSULES 100 capsules / 500 mg \$14.95

Direct from the Peruvian Andes, Raintree's maca is organically grown, low-heat dried, and processed without any chemicals, additives, binders or fillers; only 100 % pure ground maca root. Suggested use: 4 capsules twice daily or as desired. Ingredients: 100% pure maca root (*Lepidium meyenii*).

MALE PLUS EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A highly popular herbal formula for men to support sexual performance and libido.* This formula has a huge following of happy repeat customers! Suggested use: 60 drops (2 ml) twice daily. Ingredients: a proprietary blend of muira puama, catuaba, huanarpo macho, and sarsaparilla extracted in distilled water and ethanol.

MATICO EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Matico is traditionally used in the Amazon as a digestive tonic, upper respiratory tonic and externally on the skin.* Raintree's matico has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Can also be applied topically on the skin as desired. Ingredients: matico leaf (*Piper aduncum*) extracted in distilled water and vegetable glycerine.

MUIRA PUAMA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Muira puama is known as "potency wood" in Brazil for its popular traditional use of supporting male sexual potency.* This concentrated liquid extract of muira puama uses proprietary extraction methods to deliver more active and beneficial phytochemicals than other available products. Provides approximately 500 mg of muira puama root bark per milliliter of extract. Suggested use: 60 drops (2 ml) 2 or more times daily. Ingredients: muira puama bark and root (*Ptychopetalum olacoides*) extracted in distilled water and ethanol.

*** These statements refer to traditional uses only and are not supported by medical research. These statements have not been evaluated by the Food and Drug Administration. These products are not intended to treat, cure, mitigate or prevent any disease or condition.**

MULATEIRO EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Mulateiro is traditionally used in the Amazon for various skin issues.* Raintree's proprietary extraction method follows the traditional preparation of boiling the bark down into a strong decoction. It is then preserved with natural vegetable glycerine. Suggested use: 60 drops (2 ml) 2 - 3 times daily or as desired. Can also be applied topically on the skin as desired. Ingredients: mulateiro bark (*Calycophyllum spruceanum*) extracted in distilled water and vegetable glycerine.

MYCO CAPSULES 120 capsules / 650 mg \$25.95

A synergistic formula of 8 rainforest botanicals traditionally used in South America for their active properties.* Suggested use: 3 capsules twice daily. Ingredients: a proprietary blend of mullaca, Brazilian peppertree, anamu, clavillia, macela, fedegoso, picão preto, and uva ursi.

MYCO EXTRACT 4 Fluid Ounces / 120 ml \$25.95

A liquid extract of this dynamic combination of plants for people with digestive or absorption difficulties with capsules. Suggested use: 60 drops (2 ml) 2 - 3 times daily. Ingredients: a proprietary blend of mullaca, Brazilian peppertree, anamu, clavillia, macela, fedegoso, picão preto, and uva ursi extracted in distilled water and ethanol.

N-TENSE CAPSULES 120 capsules / 700 mg \$25.95

N-Tense combines the rainforest's most potent and powerful plants into one synergistic formula. This proprietary and unique formula contains 50% graviola combined with 7 other plants that have similar properties and actions as graviola. Most find this unique blend of rainforest plants to have synergistic actions and provide better results than graviola alone. Suggested use: 3 - 4 capsules 3 times daily. Ingredients: a proprietary blend of graviola, mullaca, guacatonga, espinheira santa, bitter melon, vassourinha, mutamba, and cat's claw.

N-TENSE TOPICAL EXTRACT 2 Fluid Ounces / 60 ml \$17.95

A liquid extract of this popular formula for topical use on the skin. Suggested use: For topical use only. Apply directly to skin several times daily. Ingredients: a proprietary blend of sangre de grado, copaiba, graviola, espinheira santa, suma, bellaco caspi, huacapu, pau d'arco, mullaca, vassourinha, and mutamba extracted in distilled water and alcohol.

NTENSE-2 CAPSULES 120 capsules / 700 mg \$25.95

Another intensive formula with 8 rainforest plants which have been independently documented around the world with active pharmacological actions.* Suggested use: 3 - 4 capsules 3 times daily. Ingredients: a proprietary blend of mullaca, anamu, vassourinha, simarouba, picão preto, suma, cat's claw, and espinheira santa.

-12

PAU D'ARCO EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Scientists around the world have documented the active properties of pau d'arco and its chemicals, including the widely studied chemicals, beta-lapachone and lapachol.* Suggested use: 60 drops (2 ml) 2-3 times daily. Ingredients: 100% pure Brazilian wild-harvested pau d'arco inner bark and heartwood (Tabebuia impetiginosa) extracted in distilled water and alcohol.

PIRI-PIRI EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Piri-Piri is traditionally used in the Amazon as a nerve tonic and digestive tonic.* Raintree's piri-piri has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Ingredients: piri-piri rhizome (Cyperus articulatus) extracted in distilled water and vegetable glycerine.

RAINFOREST BODY BUTTER 4 Ounces / 120 ml \$14.95

An exotic blend of lush tropical fruit and nut butters from the rainforests of the world! Drench your driest, flakiest skin in this rich, natural, moisturizing, buttery balm. It nourishes, seals in moisture, and protects the skin; aiding in vital moisturization and skin repair. All natural - no chemical preservatives or additives. Contains: cocoa butter, mango butter, shea butter, sal butter, kokum butter, copaiba resin, rosehip seed oil, emu oil, and vitamin E oil.

RAINFOREST REVIVE 4 Ounces / 120 ml \$17.95

Revive, rejuvenate and nourish your skin with the essence of the rainforest. Intensive therapy for your skin with the rich, emollient, regenerative, healing oils, resins and extracts of the rainforest. Rich in naturally occurring nutrients including vitamins, minerals, antioxidants, essential fatty acids, and trans-retinoic acid. Rainforest Revive attenuates wrinkles for a more youthful, supple look and feel. Contains: aloe vera gel, copaiba resin, andiroba oil, rosehip seed oil, cocoa butter, shea butter, sangre de grado resin, avocado seed oil, emu oil, and vitamin E oil.

SANGRE DE GRADO RESIN 2 Fluid Ounces / 60 ml \$17.95

A pure natural resin extracted from the sangre de grado tree which is also called "dragon's blood." Raintree's sangre de grado is wild-harvested from the Peruvian Amazon. It can be used topically as well as taken internally. Suggested use externally: apply directly to skin several times daily and let dry completely. Suggested use internally: take 15 drops (.5 ml) in a small amount of liquid twice daily. Ingredients: 100% pure natural sangre de grado resin (Croton lechleri).

SIMAROUBA EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Simarouba is known as “dysentery bark” in South America where it is traditionally used for dysentery and intestinal parasites.* It is also traditionally used externally to lighten the skin.* Raintree’s simarouba bark has been sustainably harvested in the Brazilian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Can also be applied topically to the skin as desired. Ingredients: simarouba bark (Simarouba amara) extracted in distilled water and ethanol.

TAMAMURI EXTRACT 2 Fluid Ounces / 60 ml \$17.95

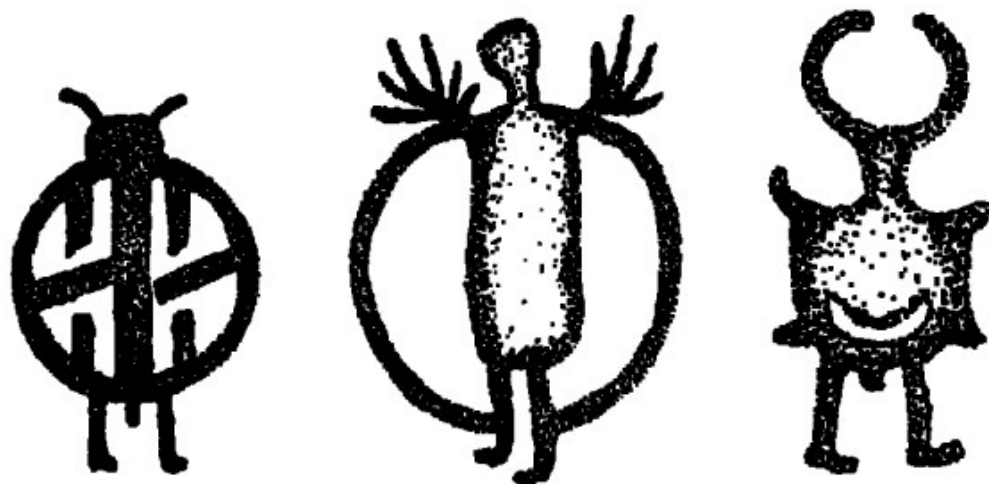

Tamamuri is traditionally used in South America for candida, arthritis, and syphilis among other things.* Raintree’s tamamuri bark has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Ingredients: tamamuri bark (Brosimum acutifolium) extracted in distilled water and ethanol.

UBOS EXTRACT 2 Fluid Ounces / 60 ml \$17.95

Ubos bark is traditionally used throughout South America for arthritis, to support ovarian and uterine functions, and for a variety of skin issues.* Raintree’s ubos bark has been sustainably harvested in the Peruvian Amazon where it has grown naturally without pesticides or fertilizers. Suggested use: 60 drops 2 - 3 times daily or as needed. Can also be applied topically to the skin as desired. Ingredients: ubos bark (Spondias mombin) extracted in distilled water and ethanol.

The Healing Power of Rainforest Herbs 535 Page Book \$19.95

Author Leslie Taylor, ND., one of the world’s experts on rainforest medicinal plants, details more than 70 Amazon medicinal plants in monograph format and teaches readers how to use them, the scientific validation and research behind them, as well as Indian tribal uses, and how they are employed worldwide in herbal medicine. Published in 2005 by Square One Publishers, Inc.

AMAZON SUPPORT FORMULAS

Available only through your Health Care Practitioner or direct from Raintree Nutrition. Please see your health practitioner for more information about these formulas or see our website for complete documentation of these products and their rainforest ingredients. A synergistic formula of 7 rainforest plants which are traditionally used in South America for urinary tract infections.* Suggested use: 2 - 3 capsules 3 times daily. Ingredients: a proprietary blend of chanca piedra, anamu, jatoba, Brazilian peppertree, pau d'arco, erva tostão, and guaco.

When a medicine man dies without passing his arts on to the next generation, the tribe and the world loses thousands of years of irreplaceable knowledge about medicinal plants. Most medicine men and shamans remaining in the Rainforests today are 70 years old or more. Each time a Rainforest medicine man dies, it is as if a library has burned down.

RAINFOREST PLANTS BY THE POUND

Available at finer health food stores and from Raintree Nutrition direct.

See the free online [Tropical Plant Database](#) for complete information about these power plants of the rainforest. All are sold in one-pound packages and are 60-80 mesh finely ground powders. All plants offered by Raintree are sustainably wild-harvested or organically cultivated and are non-irradiated and non-fumigated.
